# What Can I Earn?

## Financial Example:

Refer **just 10** who join earn between \$10,000 and \$70,000.00 (scholarship to CEO)

Refer **just 20** who join earn between \$20,000 and \$140,000.00 (scholarship to CEO)

**Refer 50** who join earn between \$50,000 and \$350,000.00 (scholarship to CEO)

Of course, you probably won't bring in 50 CEO program in a year, but the opportunity is there if you get in front of the right people. This can be used as a strong revenue stream to supplement your income or even a power move to help grow wealth.

The cool thing is we have a program for everyone in the health industry. If they help people, we want them! If someone is financially challenged and has no money, we simply set them up with on a scholarship program and you earn \$1000.00 when they fulfill their obligation. This allows you to bring in people who you normally could not come in.

80% of the population in the health community can afford the gold or platinum programs and you immediately earn upon sign up.

Around 5% of the health industry population can consider a CEO Program so this is a targeted market not for everyone but, if you get in front of these people you have the program for them and you earn greatly from it.
