Now that I'm a Member, How Much does it Cost?

One reason we are voted one of the top opportunities for entrepreneurs is because once you're a member it is just \$50 a month (less than the cost of a session with a client) to have access to everything.

Membership Term

Due to the low cost of becoming a member, and the low monthly total members pay for everything, members are under a 2- or 3-year agreement at the \$50. It generally takes 2-3 years to grow your business is how we

design our membership programs and the term.

For example: If you wish to opt out and you have 4 months left on your term you just pay \$200 (\$50x4), and the membership is terminated immediately, or you can sell your membership as it carries great value (read below).

OPT OUT Process

Sometimes members might have changes in life or business and wish to OPT out of being a member. You

can **opt out at any time** by paying the remainder months due on your membership. It is that easy!

You will simply contact your alpha leader and they will immediately start the process for you. We would hate to see you go but, fully understand and support you.

Selling or transferring your membership- wow!

Our memberships are unbelievably valuable, and if you wish to opt out you can sell your membership for up to the original cost you paid for it, and the monthly total due transfers over to the new person and you are immediately opted out.

Renewal of Membership

You never have a renewal fee. When the membership term is up it renews automatically for your convenience for a new duplicated term. If you wish to opt out just contact your alpha leader and we will get you taken care of.

Adding Incredible Assets

As we add assets which we do regularly, you never have an additional membership expense. You are guaranteed your monthly total will never go up. That is incredible and why you want to lock in your membership.

Achieve Systems Divisions

We have 12 divisions of entrepreneurs within the walls of Achieve Systems, and you get access to network and grow referral and strategic relationships with them all. All included!

What if my business is not doing well?

We recommend you contact your Alpha leader that we assign to you, and figure out an immediate action plan. We care very much about your success. If someone is not successful it generally means they are not plugging into the resources properly. Let's analyze it and figure out.

The Standard Membership Agreement

All members have a standard membership agreement that we put in place to create the perfect win-win with you and your business. That is provided and signed online so you can review it at any time if you have questions.

Success

Your success is especially important to our team. That is why we do what we do. Most coaches charge more for a monthly mastermind that is 1x a week then we do for one a day that you can use. If you add in everything else we provide, you will find this to be the best option in our industry hands down. Let's build business!

A MESSAGE FROM CEO ROBERT RAYMOND

We have set this incredible membership program up because we know how hard it is to be in business as an entrepreneur alone. We have created a membership system that is inexpensive and can save you 10s of thousands of dollars. This membership program can help you within every aspect of your business, and provide you incredible leads.

It can also help you up-level your business and do bigger things such as publish a book, write education, teach workshops, invent products, create outstanding marketing campaigns, open a facility, franchise, license or make next level moves for your business. The resources are here for you to plug into!

We provide this manual to help our members understand the Achieve Financial Systems. If you budget 50 bucks into your business, you can acquire millions of dollars of business building assets.

This is how we give back to our industry and entrepreneurs as we know how hard it can be. We wish to strongly help you up-level.

Yours in Success,

Robert Raymond, Achieve Systems CEO
