How Does the Scholarship Work?

The scholarship program means Achieve Systems will invest the initial fee of \$4995 up front in money and time for you and provide full-access. You immediately own the standard full-access gold level program. **This is our investment in your success!** You are then, responsible for referring (1) person who joins us on the gold or higher program within a year and your obligation is handled. Easy!

Great Stuff: At a year time if you have not referred 1 that has joined we will extend it 45 days to further help you. If you do not at that time fulfill the scholarship you can pay \$2500 which is 1/2 of the initial total. At that time you should be financially successful of course.

Most of our members continue to refer and earn outstanding income. It is our goal to grow our community to benefit each of us. When you are awarded a scholarship, you earn the following if you refer colleagues. We have some who refer up to 20 + a year who join us!

SEND US LEADS	YOU EARN	NOTES
REFERRAL #1	\$0	First referral joins on either gold or platinum program. It covers a small percentage of the cost we have invested in you. Your obligation is FULFILLED for the scholarship
REFERRAL #2	\$1000 - \$6500 per referral that joins us.	After referral #1 you have no more obligation and you earn \$1000 - \$6500 per person that you refer for the rest of your life.

Great income potential - We grow our business from within due to our high success rate. This means we put our money and efforts where our mouth is.

Important Questions & Answers

Do I have to sell?

Absolutely NO.....

You simply refer and our team takes it from there.

Does Achieve assist me in finding a person?

Absolutely yes.....

1. We provide you a full manual with an action plan on how to do it!
3. You can contact your alpha leader any time for support.
4. You have a team of professionals you will refer to!

Its simple!

What happens if I don't bring in 1-person in a year?

- 1) We will extend the time by 45 days and assist you!
- 2) OPTION: You can then pay a portion of the initial rather than refer one if you wish at a year but, that is not the goal. We even drop the initial total by 50% so even if you dont refer someone who joins at a year its only \$2495 (1/2 as we cover the other 1/2 guaranteed minimum for all scholarships). At the 1 year mark your business should be much more successful and this should not be a concern.

"The goal of the scholarship program is for you to gain all resources with little to no investment up front and we grow together over the 1st year!"

- **Vanessa Raymond**,
Achieve Executive Leader
